

## Schreiner University Student Accident and Health Plan Description Summary

### Introduction

The mission of Schreiner University is to provide the best possible academic experience for all of our students. As stewards, the health care center and administration recognize that the promotion of health and wellness is vital to college experience.

Both Schreiner University and the students have a *mutual investment* that should be protected. Adequate health coverage can serve to keep students in class and protect students and the school against attrition due to the possible financial hardship caused by incurred medical expenses.

### Health Insurance Requirement

As such, Schreiner University requires that all residential and international students have health insurance through one of the following methods: a family employee plan, a private insurer, or through a quality, low-cost plan offered by the University. The University's plan is administered by Associated Insurance Plans International, Inc. (AIP) and underwritten by Delos Insurance Company.

Residential and international students have the opportunity to demonstrate adequate health coverage by waiver, or *must* purchase the Schreiner University Student Health Plan. Students may waive or enroll in this coverage on-line at [www.SchreinerInsurance.org](http://www.SchreinerInsurance.org) by **August 31, 2008** (website will be closed at midnight) or they will be charged for the University Plan on their student account. **If you have not waived coverage by the required date, you will be automatically enrolled in the University's plan and the charge will be non-refundable.**
